

Sunshine Blues

Bahamas

Sunset sings the sweetest tune
Just the song he wrote for his true love in bloom
I held you dear since the dawn of time
You know it's true that for you I shine

Going up, you're coming down
I'm only hoping some day you'll turn around
Cause I'd be shining and then you'll see
Who could love you more than me?

How I wish you felt the same
I'm jealous of the wolves when they howl out your name
I send my love bouncing from star to star
So it can find you wherever you are

I'm going up, you're coming down
I'm only hoping some day you'll turn around
Cause I'd be shining and then you'll see
Who could love you more than me?
Ah who could love you more than me
No one could love you more than me
