

# The Bridge

Bahamas

Take me to the bridge and let me walk upon the water  
Take me to the bridge and let me walk upon the water

Oh, child don't say sorry  
Run wild, though I might worry  
Let them do as they do  
Let them find their own way  
There's so much to be gained now  
From making your own mistakes

Take me to the bridge and let me walk upon the water  
Take me to the bridge and let me walk upon the water

Run free so much to discover  
You don't need me or your mother  
Let them go where they go  
Let them find their own way  
I'm right here beside you  
To love and gently guide you

Take me to the bridge and let me walk upon the water  
Take me to the bridge and let me walk upon the water  
Take me to the bridge and let me walk upon the water  
Take me to the bridge and let me walk upon the water
