

You know what they say
Sometimes love ain't so pretty
It can break you if you let it
Everything that you put in it
Fight all day, fuck all night
Feels more wrong than it feels right
Oh, baby, it's so painful

I can't face the morning
Damn, it feels so lonely
I can make no sense of it
Don't think we'll be making it
I can tell it's over
Way before it's over (It's over, it's over)
It's over

Love is not enough
Love's not enough
For us (Love-love, love-love, love-love)
Love's not enough
For us (Love-love, love-love, love-love)
For us
Love's not enough

Lost inside my day
Baby, please don't go away
When you do I fall apart
When you're here it breaks my heart
Let me be clear, I'm a mess
Ain't no doubt I gave my best
Oh, baby, it's so painful

I can't face the morning
Damn, it feels so lonely
I can make no sense of it
Don't think we'll be making it
I can tell it's over
Way before it's over (It's over, it's over)
It's over

Love is not enough
Love's not enough
For us (Love-love, love-love, love-love)
Love's not enough
For us (Love-love, love-love, love-love)
For us
Love's not enough

How did this turn into emptiness?
Feels like I failed this

Love is not enough
For us (Love-love, love-love, love-love)
Love's not enough
For us (Love-love, love-love, love-love)
For us
Love's not enough
