

Altar Of The Sun

Bahari

Our love shines bright
Under starry skies
We burn all night
Like a summer fire

We keep turnin', turnin' it up
We're burnin' it up
We're burnin' it up
You don't have to look if you can't find me
You know where
Where I'll be
I'm at the altar of the sun
I'm at the altar of the sun
I'm at the altar of the sun

We got so high
Like a tidal wave
Your moon, my sky
Our sacred place

We keep turnin', turnin' it up
We're burnin' it up
We're burnin' it up
You don't have to look if you can't find me
You know where
Where I'll be
I'm at the altar of the sun
I'm at the altar of the sun
I'm at the altar of the sun

I took a ride and I never looked back
I feel sorry for the kids who can't
The sand on your abs, yeah I'll worship that
I'm on one, 'til I'm done

I'm at the altar of the sun
Oh, I've been waiting
At the altar of the sun
Don't keep me waiting
Come, baby, come
I'm at the altar of the sun

We keep turnin', turnin' it up
We're burnin' it up
We're burnin' it up
We keep turnin', turnin' it up
We're burnin' it up
We're burnin', burnin'

I'm at the altar of the sun
I'm at the altar of the sun

We keep turnin', turnin' it up
We're burnin' it up
We're burnin' it up
We keep turnin', turnin' it up
We're burnin' it up

We're burnin', burnin'
I'm at the altar of the sun

I took a ride and I never looked back
I feel sorry for the kids who can't
The sand on your abs, yeah I'll worship that
I'm on one, 'til I'm done

I'm at the altar of the sun

Don't keep me waiting
Come, baby, come
