

# Hurt

Bahari

Hold me in the morning  
When I can't stand myself  
Love me without warning  
You know I need your help  
Before we get much higher  
And we lose ourselves  
Just to keep from drowning

Everyday we fall apart  
Seems like it's not news now  
Told you for the sake of art  
I love it when you hold me down

If you build me up  
Then I will hold you down  
Hold you down  
Oh  
If you build me up  
Then I will hold you down  
Hold you down  
Just don't hurt me, don't hurt me  
Just don't hurt me, don't hurt me  
(Ha ha ha-ha-ha ha, ha ha ha-ha-ha ha)  
(Ha ha ha-ha-ha ha, ha ha ha-ha-ha ha)  
Just don't hurt me, don't hurt me

You still feel like home  
And I hate it  
You need me to smile  
So I fake It  
You've loved me through all of my phases  
And I'm still trying to hold on  
Even when it feels wrong  
It's easy for you to let go and I notice

Everyday we fall apart  
Seems like it's not news now  
Told you for the sake of art  
I love it when you hold me down

If you build me up  
Then I will hold you down  
Hold you down  
Oh  
If you build me up  
Then I will hold you down  
Hold you down  
Just don't hurt me, don't hurt me  
Just don't hurt me, don't hurt me

I've already given in  
As much as I can it's  
Killing me slowly  
If you're gonna leave at least  
Try to remember me  
Not the way that it was  
But the way that I could make you complete

If you build me up  
Then I will hold you down  
Hold you down  
Oh  
If you build me up then  
Then I will hold you down  
Hold you down  
Just don't hurt me, don't hurt me  
(Ha ha ha-ha-ha ha, ha ha ha-ha-ha ha)  
(Ha ha ha-ha-ha ha, ha ha)  
(Ha ha ha-ha-ha ha, ha ha ha-ha-ha ha)  
(Ha ha ha-ha-ha ha, ha ha)
