

Down

Bahja Rodriguez

I'ma keep it one million
This one hell of a feeling
That I'm getting from you
Them lames were so hard to deal with
You showing proof that-
Can't nobody do what you do

I wanna be
The only one that's for sure
The only one that's real
I wanna be all you want

I wanna be
The only place you can go
The only love you feel
The only girl in your heart

Hold me, tell me you need me like you want that
Showed you baby the real ain't no going back
Rest of my life, I'm with all that
Long as you hold it down when it's all bad
Baby just say the word and I got that
Keep me up on my toes, boy I like that
Give me all that you got you get it right back
Give me all that you got you get it right back

Used to give a hundred, they give fifty
But then you turned the page and showed me something different
(Baby) It's nothing less than beautiful
Real life love, they call it goals, say we're unusual

We can't break what we building
We can't shake for opinions when don't nobody know the truth
Keep your eyes on the mission
When I'm talking just listen and you'll know just how to move, oh

I wanna be
The only one that's for sure
The only one that's real
I wanna be all you want

I wanna be
The only place you can go
The only love you feel
The only girl in your heart

Hold me, tell me you need me like you want that
Showed you baby the real ain't no going back
Rest of my life, I'm with all that
Long as you hold it down when it's all bad
Baby just say the word and I got that
Keep me up on my toes, boy I like that
Give me all that you got you get it right back
Give me all that you got you get it right back

Used to give a hundred, they give fifty
But then you turned the page and showed me something different
