

Know Better

Bahja Rodriguez

Thinking bout this situation (Uh)
Think I need some confirmation (Uh)
I need real communication (-Cation)
Cause you been making accusations
Saying I wasn't where I say I was (Was)
Acting like, I got something to cover up (Up)
You should know I wouldn't put nobody over us (Us)
All I ever tried to do was show you love
Think what you wanna think
You just hurting yourself
Be where you wanna be
Just know I treated you well
And when it hits your mind, I hope it gives you hell
I hope it gives it hell

It's so disappointing to think you know someone
Trying to tell you bout yourself looking so damn dumb

You know better (Know better)
You know better than that
You know better than that, you do

You know better (Know better)
You know better than that
You know better than that, oh you do

If-you-choose
You can do your thing, just know what you lose
If-you-move
What you gon' do when the joke is on you, yeah

Thinking bout this situation (Situation)
Think I need some confirmation (Confirmation, babe)
I need real communication
Cause you been causing my frustrations
Saying I should grow up
Saying I don't care enough
You should know I wouldn't put nobody over us
All I ever tried to do was raise you up

It's so disappointing to think you know someone
Trying to tell you bout yourself looking so damn dumb

You know better (Know better)
You know better than that
You know better than that, you do

You know better (Know better)
You know better than that
You know better than that, oh you do

If-you-choose
You can do your thing, just know what you lose
If-you-move
What you gon' do when the joke is on you, yeah
