We been going back and forth I just can't do it
You got me in my head I just might lose it
I don't really wanna talk about it
I'm under the influence, yeah
So why do you exist? Don't call me
I'm about the way you love me
Actions speak louder than words
You get on my nerves, ah
If you wasn't down for the ride
I would've curved ya
All of my friends keep telling me
"He don't deserve you"
And I know it's true
I don't know what to do

You, keep on leading me on
You, keep on doing me wrong
You, say that you want me back, but
You don't know what you want
You don't know what you want
You, you don't know what you want
You, keep on leading me on, 'cause
You don't know what you want

I've been way too gone
You do me so wrong
I don't want you back
You just want me all to yourself, self
All to yourself, self

I've been way too gone
You just broke my heart
I don't want no parts
But you want me all to yourself, self
All to yourself, self

You did this too many times
I won't do this on my line
Never do it on my line
I came way too low, yeah, oh yeah
Believe me, make it look so easy, what the fuck you think?
I've been at a space to high
Cooling on a late night vibe
You missing my late night vibes
Only wanna do you right
Only wanna hold you down
Looking all lost, and you tryna be found
Damn, look at you now, look at you now

You, keep on leading me on
You, keep on doing me wrong
You, say that you want me back, but
You don't know what you want
You don't know what you want
You, you don't know what you want
You, keep on leading me on, 'cause
You don't know what you want

I've been way too gone
You do me so wrong
I don't want you back
You just want me all to yourself, self
All to yourself, self

I've been way too gone
You just broke my heart
I don't want no parts
But you want me all to yourself, self
All to yourself, self
