

Call It Like It Is

BAILEN

Heavy-handed, demanding to meet your bottom line
If all I ever am is copy, then what is left to mine?

Well, I'm falling with you
'Cause the world is what you made it
Yeah, I'm falling, it's true
And I'm tired of tryna fake it

So call it like it is
You've got some bodies in the basement
Go on and call it like it is
You're not the victim that you're always playing
Oh, baby, don't lie to me (Lie to me)
Shoot the moon and say you'll save me
Oh, baby, don't lie to me (Lie to me)
Say you love me then replace me
Just call it like it is

All the burned out, the bleeding you buried in the ground
They didn't matter to you then, they don't matter to you now

Well, I'm falling with you
'Cause the world is what you made it
Yeah, I'm falling, it's true
And I'm tired of tryna fake it

So call it like it is
You've got some bodies in the basement
Go on and call it like it is
You're not the victim that you're always playing
Oh, baby, don't lie to me (Lie to me)
Shoot the moon and say you'll save me
Oh, baby, don't lie to me (Lie to me)
Say you love me then replace me
Just call it like it is

Yeah, call it like it is
Call it like it is
Just call it like it is

So call it like it is
You've got some bodies in the basement
Go on and call it like it is
You're not the victim that you're always playing
Oh, baby, don't lie to me (Lie to me)
Shoot the moon and say you'll save me
Oh, baby, don't lie to me (Lie to me)
Say you love me then replace me
Just call it like it is
