

Going On A Feeling

BAILEN

You wait for love to find you
You trust the road to take the lead
You said, "Come with me and I'll
Show you the only road you need"

But I know it ain't right
When you say you saw a black and white
Well, I tried to believe
But I'm weak in my knees 'cause I'm

Goin' on a feelin', I'm just goin' on a feelin'
For the first time in my life
Goin' on a feelin', I'm just goin' on a feelin'
Gonna get it wrong before I get it right
Gonna get it wrong before I get it right

Broke down along the 101
You said, "Someone will come along
Just have a little faith"
Well, I left mine somewhere, clearly
You said, "Don't worry, we'll just roll away"
"We'll just roll away"

But I know it ain't right
When you say you saw a black and white
Well, I tried to believe
But I'm weak in my knees 'cause I'm

Goin' on a feelin', I'm just goin' on a feelin'
For the first time in my life
Goin' on a feelin', I'm just goin' on a feelin'
Gonna get it wrong before I get it right
Gonna get it wrong before I get it right

Not what I oughta be
But better than I used to be
Getting better all the time
Not what I oughta be
But better than I used to be
Getting better all the time
Not what I oughta be
But better than I used to be
Getting better all the time
Not what I oughta be
But better than I used to be
Getting better all the time
Not what I oughta be
But better than I used to be
Getting better all the time

Goin' on a feelin', just goin' on a feelin'
For the first time in my life
For the first time in my life
Goin' on a feelin', just goin' on a feelin'
For the first time in my life
(Not what I oughta be, but better than I used to be)
For the first time in my life
(Getting better all the time)
Goin' on a feelin', just goin' on a feelin'
For the first time in my life

(Not what I oughta be, but better than I used to be)
For the first time in my life
(Getting better all the time)
Goin' on a feelin', just goin' on a feelin'
For the first time in my life
(Not what I oughta be, but better than I used to be)
For the first time in my life
(Getting better all the time)
