

# Hiding

BAILEN

Half asleep when I let go  
Quick goodbyes, long hellos  
Never time to wonder why I'm going  
Late night calls turn to dreams  
When I wake up you're still on with me  
For every moment we have missed  
They're all right there in the quiet

In the words we don't say, in the pauses we take  
Knowing now we're in the right place  
From the start to the end  
It's still there even when we're fighting

Our love is hiding, hiding in the silence  
Our love is hiding, hiding in the silence

White noise on, but all I hear  
Days keep ringing in my ears  
I don't know why the world's so loud  
But somehow you can turn it down

In the words we don't say in the pauses we take  
Knowing now we're in the right place  
From the start to the end  
It's still there even when we're fighting

Our love is hiding, hiding in the silence  
Our love is hiding, hiding in the silence  
And sometimes I know it feels like we can't find it  
But it's hiding in the silence

I get one good look from you and I know what you mean

Our love is hiding, hiding in the silence  
Our love is hiding, hiding in the silence  
And sometimes I know it feels like we can't find it  
But it's hiding in the silence  
And sometimes you can't find it  
But it's hiding in the silence
