I Was Wrong

BAILEN

How is it so?
The day it come, day it go
And I can see the rise of a fallen fight
Hear 'em go
Singing, "hey-yah, hey-yo"
Just marching on the quicksand paved in gold

And I can see it now
The red flag waving in the light of day
And they won't take it down
Nothing's gonna change 'til we all can say

I believe that I was wrong, I was wrong all along
I believe that I was wrong, I was wrong all along
I believe we move along, we move along, if we can say
I believe that I was wrong

Born from the earth
One beat, one birth
But call your brother blind, say that you're the one with vision
Lend an ear
We sure can talk but can we hear?
'Cause years won't make you wise if you don't try to listen

If chaos is the law
We'll keep on falling down in the same way
Something can be done
But nothing's gonna change 'til we all can say

I believe that I was wrong, I was wrong all along
I believe that I was wrong, I was wrong all along
I believe we move along, we move along, if we can say
I believe that I was wrong

I went down to the river
To find strength for another day
I crisscrossed up the mountain
I never thought it'd be so hard to say
I never thought it'd be so hard to say
I never thought it'd be so hard to say

I believe that I was wrong, I was wrong all along
I believe that I was wrong, I was wrong all along
I believe we move along, we move along, if we can say
I believe that I was wrong
