

# Never Leave

Bailey Zimmerman

Yeah, we're only human  
But that don't mean that we can't change  
I can hurt you, you can hurt me  
But we feel each other's pain  
And that's what makes us human  
That I could break your heart in two  
And still love you through all the days we've been gettin' through

For both our sake, let's put love back in its place

I won't give up on you, so darlin', don't give up on me  
Don't you wanna stay? Don't just walk away from our memories  
And I can't promise nothin' but the rest of me  
I'll fight for you, I'll fight for us, I'll fight to never leave

And life don't make it easy  
But you're the reason my heart beats  
You swore you'd never leave me  
So I've been thinkin' it'd be easy to get down on one knee

For both our sake, let's put love back in its place

I won't give up on you, so darlin', don't give up on me  
Don't you wanna stay? Don't just walk away from our memories  
And I can't promise nothin' but the rest of me  
I'll fight for you, I'll fight for us, I'll fight to never leave

I promise not to let you fall  
I said that I would give my all  
And you know that won't change  
Yeah, it'll always be the same

I won't give up on you, so darlin', don't give up on me  
Don't you wanna stay? Don't just walk away from the memories  
And I can't promise nothin' but the rest of me  
I'll fight for you, I'll fight for us, I'll fight to never leave, never leave  
Never leave, never leave, never leave
