

All Night

Bakar

Yeah, uh

I've been up all night, you got my heartbeat aching, mmm
My mind is runnin' wild, oh girl, you leave me hangin', yeah

I can tell it by the look in your eyes
You've been doin' somethin' you ain't supposed to
You can try but you will never disguise
There's a darkness in your heart, it controls you

All night, hey, all night, hey, all night, hey
All night, all night

Yeah, hey-ayy-ayy
Yeah, ee-yeah

How'd you get so high?
Help me get through the night
Know you down for the fight
Know you down for the fight
Made me feel more alive
Made me feel more inside
Ecstasy, you should try it
Maybe just for a night
'Cause lately I've been havin' these feelings comin' over me
Summer turns to Winter, it ain't nothin' like it's s'posed to be
When you say my name, girl
When you say my name, girl
I know I'm not mistaken

I can tell it by the look in your eyes
You've been doin' somethin' you ain't supposed to
You can try but you will never disguise
There's a darkness in your heart, it controls you

All night, hey, all night, hey, all night, hey
All night, all night (All night, all night, all night)
All night, all night (All night, all night, all night)
(Woo)
