

## Badlands

Bakar

It's grim all day, we're down in the dungeons  
Livin' in a town of hard times called London  
Looking for a job cause your job's redundant  
Fuck it all off and go to the function  
Do what we want from Monday to Sunday  
Stop me and search, I don't give her no face  
No officer, I don't do no cocaine  
No officer, I don't give you no name

It's all in your head, so just get out of bed  
And do something instead of just wastin' your time  
I know that you're tryna be my own worst enemy  
Standin' in front of me, wastin' my time

Wish that it was easy just tryna be me  
Freedom is a freebie, would you believe it?  
Seein' is believin', don't stop me dreamin'  
I say, "Fuck the queen," tell me if it's treason  
Wish that it was easy just tryna be me  
Freedom is a freebie, would you believe it?  
Seein' is believin', don't stop me dreamin'  
I say, "Fuck the queen," tell me if it's treason

It's all in your head, so just get out of bed  
And do something instead of just wastin' your time  
I know that you're tryna be my own worst enemy  
Standin' in front of me, wastin' my time  
Wastin' my time, wastin' my time  
Wastin' my time, wastin' my time  
Time, time, time, time, time, time  
Time, time, time, time, time, time, time

Fuck off!
