

Everytime

Bakar

Long time, can't connect, I can't see the signs
Can't let you forget I'm drunk off my pride
Oh no, I took a right
Oh no, you took what's left
I hope we don't regret end of the night, every time

'Cause I keep gettin' my heart broken every time
On a world tour tryna hit the hostess on every flight
Had no clue you was tryna play games with me, yeah-yeah-yeah
Had no clue, had no clue, it's a shame on me, yeah-yeah-yeah
But it's cool, but it's cool, I'ma ride man, you hot like a reindeer, yeah
Can't get you off my mind, but when I do, I'll be braindead, yeah
Bad ting, different design, woo, yeah

I don't need no introduction to the game (No way)
I don't need no instructions, I might just play (Ok)
I hone my skills on the hill, I only want what's real (Oh yeah)
I hone my skills on the field, I only want a mil' (Oh yeah)
I-

I keep gettin' my heart broken every time
I keep trustin' the wrong ones every time

That ADHD look good on me like every time
No jewels on me that glisten on me like every night
I'm in DSM goin' crazy
Shouts to the label that pays me
I'ma put something on my lady
Spend a couple racks on my baby

Uh, she's in the back of the Bentley
I don't know if it's ride or die
I keep shopping and spending my money, tryna ease my mind
Uh, two can play that game, that's how I roll the dice
Uh, ecstasy with your best friend how I spend my time

'Cause every time
Every time I think about you
I want you just
Just the way you are

I saw you looking out, it's just the way you are
You caught me with your smile, it's just the way you are
You love to walk away, it's just the way you are (It's just the way you are
)
The way you walked away is breaking my heart (Is breaking my-)
It's just the way you are, yeah (Ha, uh)
It's just the way you are (Oh)
It's just the way you are (It's just the way you are, oh)
It's just the way-
Chyeah

I keep gettin' my heart broken every time (Oh)
I keep trustin' the wrong ones every time (Every time)
I keep gettin' my heart broken every time (Every time)
I keep trustin' the wrong ones every time
Every time (Oh), every time

Every time (Oh, woah), every time
