

# Million Miles

Bakar

These lighties and these baddies  
Man they're fucking up my focus  
They're fighting out the front my crib  
They're causing me commotion  
Oh, your album just came out?  
We didn't even notice  
Smoking on my Cali weed  
It's expialidocious  
Camden Town  
We run this town  
And everybody knows it  
2017 I had to boss up on my grown shit  
616, I keep a hit  
I'm always locked and loaded  
I'm chilling with my feet up  
You seem them Prada loafers  
Last year I took a L  
Pick it up and carry on  
Maybe roll another L  
Just make sure it's super strong  
I just shot with my LeBron  
I think I'm the man now  
BK why you take so long?  
Cause I got a plan now

BK, I'm the best one  
Oh, there's no suggestion  
Oh you got something to say?  
Get it off your chest hun!  
BK, I'm the best one  
Oh, there's no suggestion  
Oh you got something to say?  
Get it off your chest hun!

You're a million miles away  
You're a million miles away  
How'd you get so far from here?  
I can see your star in space  
You're a million miles away  
You're a million miles away  
How'd you get so far from here?  
It's like aaahh (yeah)  
It's like aaahh (yeah)  
It's like aaahh (yeah)  
Aaahh aaahh  
It's like aaahh (yeah)  
It's like aaahh (yeah)  
Aaahh (yeah)  
Aaahh aaahh

Knick-knack paddywhack  
Give a dog a bone  
I got robbed on my way home  
Now my brother's on the phone  
You know my cousin  
He ain't bluffin'  
He might take your life for nothing

He might spare you if you're lucky  
So you better call for something  
Anyhow  
You ain't ready now  
Think you're ready now?  
We was down and out  
Me and [?] while  
Living hand to mouth  
Count our blessings now  
No more pennies now  
Check my bank account  
Think I run my town  
Do my borough proud

You're a million miles away  
You're a million miles away  
How'd you get so far from here?  
I can see your star in space  
You're a million miles away  
You're a million miles away  
How'd you get so far from here?  
It's like aaahh (yeah)  
It's like aaahh (yeah)  
It's like aaahh (yeah)  
Aaahh aaahh  
It's like aaahh (yeah)  
It's like aaahh (yeah)  
Aaahh (yeah)  
Aaahh aaahh aaahh

You're a million miles away  
You're a million miles away  
How'd you get so far from here?
