The last laugh is yours
Before and after
'Cause my heart is torn
I think I found us the answer and
End up with you I might
End up with you I might
Cook food for two I might
End up, end up, and
End up with you I might
End up with you I might
Cook food for two I might
End up, end up with you
End up, end up with you
End up, end up with you
End up, end up with you

I'm on the way, spinnin' through space
I can stop up and pick up on the way
Took me some time but it's nothin' to you
Took me a while, but I told the you the truth
Right from the start, shot for your heart
Lionel Messi, I tore you apart
Lovin' on you 'cause your friends wanna pree
Share you the world 'cause I don't wanna sneak
Next day, first date, first summer, my last rave
You had me buggin', I can't wait
You had me stutterin' like "What do you say?"
NW, and you still on the avenue
Tried to let go, but I'm fallin' in love with you
Sippin' on pink, cool like a mint
Fly through the ends 'cause I'm finally free, ayy

The last laugh is yours
Before and after
'Cause my heart is torn
I think I found us the answer and
End up with you I might
End up with you I might
Cook food for two I might
End up, end up, and
End up with you I might
End up with you I might
Cook food for two I might
End up, end up with you
End up, end up with you
End up, end up with you
End up, end up with you

Think I found the North West one, the best one
Lost that shit, still found a hedge fund, head spun
Hope baby girl still learns her lesson
Think I found a place for you too
Think I found a place for your mood swings
Either way I hope that you choose
North West 3, I hope that you move with me
North West me got nothin' to lose
Think I found a place for you too

The last laugh is yours
Before and after
'Cause my heart is torn
I think I found us the answer and
End up with you I might
End up with you I might
Cook food for two I might
End up, end up, and
End up with you I might
End up with you I might
Cook food for two I might
End up, end up with you
End up, end up with you
End up, end up with you
End up, end up with you

End up
End up
End up
