

One Way

Bakar

(One, two, three)
Ayy

Hey! Huh? What you talking 'bout?
Me? Lose? Watch your potty mouth
Seems dead, come and sort it out
Chasing cars 'cause I'm a lager lout
Think I gotta leave 'cause mummy wants me out the house
Say hello to dreams that come and fucking ticket out
Don't try and copy my sound
My city, this is my town

I want you to stay with me but now you're moving Brexit
Someone tell Theresa May the NHS have dentists
Despite the detentions and slight apprehensions
I'm on my way to you

It's a one-way road to you but I can't stay
It's a one-way road to you, I'm on my way
It's a one-way road to you but I can't stay
It's a one-way road to you, I'm on my way

Hey! Huh? What you talking 'bout?
Badkid, someone sort him out
Say my name across the border now
Took a while; I went the scenic route
Swervin' out my lane until I catch a DUI
Teacher never liked me, never got to ask her why
I hope she can see me now, my thoughts on the TV now

I want you to stay with me but now you're moving Brexit
Someone tell Theresa May the NHS have dentists
Despite the detentions and slight apprehensions
I'm on my way to you

It's a one-way road to you but I can't stay
It's a one-way road to you, I'm on my way
It's a one-way road to you but I can't stay
It's a one-way road to you, I'm on my way

If the government calls, put my dick in their mouth
'Cause I'm back at my mum's, I can't even move out
If the government calls, put my dick in their mouth
'Cause I'm back at my mum's, I can't even move out
If the government calls, put my dick in their mouth
'Cause I'm back at my mum's, I can't even move out
And she's asking for P's, I'm just asking for peace
The government hung me out to dry-y-y, yeah

Will you come and make my house a home, house a home?
Will you come and make my house a home, house a home?
Will you come and make my house a home, house a home?
Will you come?
