Pit Stop

Bakar

Fell in love at the pitstop
Don't know how I ain't pissed off at you
If I'd know I'd been gone
Don't know why you would make me the fool
Felt like this could get done
This ain't a place you can thrift from
You showed me
All I need to
See now I'm on the m-way
I wish you told me
You had got cold feet
Wish you had told me
This how it would be
Think I got too cozy
Why did you pick me?
Tried to be 100
But you want to be 50
All you wanna do is cheerlead
I don't want you nowhere near me
Cause I ain't good at playing frisbee
And you keep playing it Disney, you win babe
Don't want your love
Don't want your love
Don't want your love, yeah

Wish you'd had told me
This is how it would be
I wouldn't of wasted my time, no
Wish you would've told me
This is how it would be
I wouldn't waste all my time

Even a hundred million won't stop
Even a hundred million won't stop
These feelings
Hundred million won't stop
Even a hundred million won't stop
These feelings
Dry cry send me on my way
I tried several other ways
I tried
You threw it back in my face
So I walked away girl
I walked away girl
How many times does it take
Can I get quicky for the wait
Maybe you is in it for the chase
Maybe I was with it
Had to settle when I did it

Wish you'd had told me
This is how it would be
I wouldn't of wasted my time, no
Wish you would've told me
This is how it would be
I wouldn't waste all my time

Running in circles
Try not to hurt you
Who do I turn to when
Even you don't deserve you
Running in circles
Who do I turn to?
Running in circles
