

You just wish that I react more  
It's why we're at war  
There's nothin' left for me to say  
I swear, you just talk 'cause you love action  
That's why we're fraction  
And nothing's happenin', hard for me  
I swear, you just wish that I react more  
It's why we're at war  
There's nothin' left for me to say  
I swear, you just talk 'cause you love action  
That's why we're fraction  
And nothing's happenin', hard for me  
I swear

I had been livin' in darkness too long  
I make you feel the bright side  
By the end of the month I be heartless  
I used to be a nice guy, nice guy  
Swear I feel better in the night time  
Babe, you feel better with your white lies  
Lead me on like I was the right guy, yeah-yeah  
Tryna save my little heart from the mess  
Hate the fact that you know my address  
'Cause you the same little, ugh, from the ends  
Yeah-yeah, yeah-yeah (Yeah-yeah)  
Yeah-yeah (Yeah-yeah)

You just wish that I react more  
It's why we're at war  
There's nothin' left for me to say  
I swear, you just talk 'cause you love action  
That's why we're fraction  
And nothing's happenin', hard for me  
I swear, you just wish that I react more  
It's why we're at war  
There's nothin' left for me to say  
I swear, you just talk 'cause you love action  
That's why we're fraction  
And nothing's happenin', hard for me  
I swear

Simmer down, simmer down, simmer down  
Simmer down, simmer down, simmer down
