

Reclaim!

Bakar

Takin' back what I want, what I want
Takin' back what I want, what I want
Takin' back what I want, what I want
Takin' back what I want, what I want

Oh, the long way's the only way that we know
So we go
Superstar wave even though we can't pay to keep up
But so what?
Not a lot of trade in this town these days
So grow up
Something's in the water I can taste, we should boil it up
For good luck
Who do I call for a sacred soul?
Who do I want when the world don't go?
Headin' your way, might take your role
Heavy low flow, it's a heavy low flow
I been trippin' all day, I been droppin' off loads
Trippin' all day 'til you gave me your dose
All for one, one for all
One for all, all for one
Once upon a time, you could change your mind
But not for long now, I been toein' the line
Yippee-ki-yay, built Rome in a day
Didn't have no shit to do, so we chill with you

Had to sacrifice for the crew
Made a wish, made it come true
Pray to God we don't see the blues
Swear to God I'd go to war for the troops

So we can reclaim, reclaim this place
Let me deface, deface this place
Can we reclaim, reclaim this place?
Let me deface, deface this place
Can we reclaim, reclaim this place?
(I'm takin' back what I want, what I want)
Let me deface, deface this place
(I'm takin' back what I want, what I want)
Can we reclaim, reclaim this place?
(I'm takin' back what I want, what I want)
Let me deface, deface this place
(I'm takin' back what I want, what I want)

I'm takin' back what I want, what I want
I'm takin' back what I want, what I want
I'm takin' back what I want, what I want
I'm takin' back what I want, what I want
I'm takin' back

Simon said he always had it in for you
Simon said he never wanted us on the move
Every time I tried to leave, they'd pull on my shoes
'Cause Simon always showed us he had nothin' to lose
Probably half the reason why we hate the blues
Probably half the reason why I don't watch the news
Black and white stripes, we can still see you

Yeah, Simon's undercover followed us into the new year
Simon said he's never had a neighbour in his life
Simon said he's takin' your possessions when you die
Simon said he's teachin' us and ready for a fight
So we have to get our own back, Simon's dead tonight

Had to sacrifice for the crew (For the crew)
Made a wish, made it come true (Come true)
Pray to God we don't see the blues (See the blues)
Swear to God I'd go to war for the troops (Go to war for the troops)

(So we can reclaim, reclaim this place)
(Let me deface, deface this place)
(While we reclaim, reclaim this place)
(Let me deface, deface this place)
Reclaim, reclaim this place
(I'm takin' back what I want, what I want)
Let me deface, deface this place
(I'm takin' back what I want, what I want)
Can we reclaim, reclaim this place?
(I'm takin' back what I want, what I want)
Let me deface, deface this place
(I'm takin' back what I want, what I want)

I'm takin' back what I want, what I want
I'm takin' back what I want, what I want
I'm takin' back what I want, what I want
I'm takin' back what I want, what I want
I'm takin' back

Oh, man, I swear to God
If I get up tomorrow mornin', I'ma tell you everything
Yeah (Hey)
