

Selling Biscuits

Bakar

Don't re-up here
So long, so long
Throw stones at your glass house
Life goes on, it goes on

But there's one thing, there's one thing
There's one thing that's keepin' me high
There's this one thing, this one thing
There's one thing that's gettin' me by

Sellin' biscuits to all these missed kids
Same old habits, 'cause we're all misfits
Tried to fall in line, tried to hide my thick skin
What does it matter if we're all addicted?

But there's one thing, there's one thing
There's one thing that's keepin' me high
There's this one thing, this one thing
There's one thing that's gettin' me by

Can you stretch your heart?
Can you stretch your heart out?
Can we drift apart?
My feelings so far now

'Cause there's one thing, there's one thing
There's one thing that's keepin' me high
There's this one thing, this one thing
There's one thing that's gettin' me by, mm
