

## Better Days

Baker Boy

Ain't no fairy tale when you live in hell  
Trust me, that's a story I know very well  
Bad weather, no umbrella, it gets better  
Seen it with my own eyes, uh  
Money and job, you ain't got one  
How you gonna raise my godson  
Adoption, I know that's not an option  
Your baby mumma watching other girls and their husbands  
They whip cribs and kids, that's how a family functions  
We face obstacles, that's not cool  
But you got to choose what's best for you  
I see you (Hey Ya)  
Tryna better yourself, and tryna better your health (Hey Ya)  
I see you getting closer every day

Tacashupa understand  
Ninquata masterplan  
Ndineka ukuluba tryna find another hand  
I'm pushing through the storm  
Being better than I am  
When I make a bigger stride  
Always tryna push me down  
Mahn, I'm bigger than the image and the fans  
Vision is precision, I can see right through the brands  
See right through the smoke  
Life is not a joke  
When I finally dropped my mask  
My mirror - it almost broke

I was told the storm would go away  
Darkest times I pray for better days  
Hey Ya, Hey Ya

Live it up, live it up til sunrise  
We standing strong through the dark times  
That's who we are  
Hey baby, we're never gonna stop the rain

Stressful yeah you know the drill  
Getting told you got shoes to fill  
Lately don't know how to feel  
Don't know what's fake or real  
So I get my mental straight  
Write my problems til the pencil breaks  
Therapeutic  
If it puts me in a better place I gotta do it  
Instead of losing myself I found music  
Real talk  
I've been down and out and I'm back now  
You can't count me out, I never back down  
And that goes to anybody with problems  
Get help and maybe we can solve them

Nhaku nhe li djälthirr wiripuw lifestyle-gu?  
Nhe dhu malthun nhuju dream job-gu  
Märr ga narra dhu nhäma djamarrkuliny'  
Walal dhu malthun nhuju courage-gu

Gotta keep pushing through  
Never stop  
It's like every time I see the rain drop  
Life falling down your face in the same spot  
If you're looking for love it's what I've got  
Got enough to go around giving ga

You say you got a lot of love, I could you use a ton  
And we can go together, we can be as one  
And I can tag along djäma nhumalangal bond  
Yaka have to worry you won't be alone

I guess I'm coming too  
Cause if you're preaching love an unity, I'm coming through  
And is that cool with you?  
Mahn, I got no issue  
Just know that I'm with you  
I'm with you  
I'm with you  
We with you

Live it up, live it up til sunrise  
We standing strong through the dark times  
That's who we are  
Hey baby, we're never gonna stop the rain

Live it up, live it up til sunrise  
We standing strong through dark times  
That's who we are  
(That's right, that's right, that's right)  
Hey baby, we're never gonna stop the rain  
(Yeah yeah yeah yeah)  
Hey baby, we're never gonna stop the rain  
Hey hey, never gonna stop
