I've been feeling like a lone wolf
Dancing in the street light, howling at the moon
When I hear the beat, ngarra'ka babuyun
Murrmaram Rirrakay, that's what a brother do
Spreading that mood, bruh, get me on the dance floor
We could have a dance-off, do it all night
Feeling all juiced up, getting my groove on
Clean it up, super, we could take a flight, a'ight?

I said, ooh
You got me feeling myself
Now I put it on you
Cool as hell
I said, ooh
You got me feeling myself
Now I put it on you
Cool as hell

You can be my favourite
You make me feel the type of way (Rirrakay)
You can be my favourite
Catch my vibe and fly away (Rirrakay)

Wudapdhun Nhe'li shower'Ngur

Is the image in the mirror what you really wanna see?
Is the person looking back at you really on track?
Are you really on the path to where you wanna be?
Dhunga ngarra nhungu, I only know me
I ain't in a coma, I really don't sleep
I ain't even trippin', every minute that I'm living
I'm gonna kill it on the rhythm, we could keep it low key, a'ight?

I said, ooh
You got me feeling myself
Now I put it on you
Cool as hell
I said, ooh
You got me feeling myself
Now I put it on you
Cool as hell

You can be my favourite
You make me feel the type of way (Rirrakay)
You can be my favourite
Catch my vibe and fly away (Rirrakay)
