

KEEP UP

Baker Boy

Let me start it off so minimal
Give a little bit, got a little glow
We could find time and date in the calendar
Speed this up, girl
That's where we're heading, yo
Maybe I'ma cool my head with pool laps
You and me together, I can deal with that
Little miss, understand I'm just a guy that gots to move
But I'm sitting at the bus stop
Feeling like hope's lost
That's when our paths crossed
She got my jaw dropped
Only got a little, but I'd give a lot
Oh my god! I be the Gela from the block

I really wanna dance with JLo
Got me feeling like I got that halo
Yeah, I'm living my life, won't stay low
Yeah, I'm fighting that fire with fuego
So keep up
Darra ga' djälthirri nhuju nhe dhu giritjirr
Keep up
Dhu-marryuna narra-gal marrtji gu'
Keep up
Dali dhu baba'yun marrtji nanya
Keep up
I really wanna dance with JLo

Nhe narra-dhu fly to Barbados
Nhäma'mirr nali-dhu giritjirr-gu
We don't gotta play by the calendar
Pack up nha dhiyanu bala
But first
Let me give you a taste
Save some for later
Fresh out the oven
Damn, that boy is a baker
If you drown in my drip, I could be your lifesaver
Highly favoured on my worst behaviour
For certain it's worsening, but I found my Jenny
This ain't Bonnie and Clyde, this is J Lo and Benny
Affleck bad chick, yeah, you is the baddest
Love don't cost a thing
I'm Good Will Hunting for magic
Penny and Shaq
I would always have your back
Superman returns

Balan is back to back to back to back
I know the whole club's packed
Give me one dance
End that, thing's a wrap

I really wanna dance with JLo
Got me feeling like I got that halo
Yeah, I'm living my life, won't stay low
Yeah, I'm fighting that fire with fuego
So keep up
Darra ga' djälthirri nhuju nhe dhu giritjirr
Keep up
Dhu-marryuna narra-gal marrtji gu'
Keep up
Dali dhu baba'yun marrtji nanya

This ain't no competition
Baby, we could play it cool
I feel like getting lifted
But you got concrete in your shoes
Don't make it complicated
Why your face look so confused?
'Cause I just got to be the boy to get you in the mood
Keep up
Keep up
