Peacekeeper

See your evil eyes hit me like a heat seeker
I'm just coolin' in my drip and my J sneakers
If the party lookin' bad then I do leave her
Cool it off (calm)

Lemme just swing when you holla

Lookin so slick for the gala

Do I have a green light? Am I valid?

A change is a must

Got you chasing the lust

Got some change for da bus

Honey honey

I'm gaining da buzz

And I'm getting the rush

Da moment you realise

You blaming the fun

Eyes off me, I'm giving you none

No blueberry fuego, just hastaluego, no complecato

Djibay, Djibay, Djibay

Peacekeeper

See your evil eyes hit me like a heat seeker
I'm just coolin' in my drip and my J sneakers
If the party lookin' bad then I do leave her

Party how you wanna, it's no bother

You can keep it coming as you are Nirvana
I see your homies in the corner with your guard up
Maybe you can help us out by turnin' down the drama
Doing what you wanna when you wanna oh my God
I can do it better, put a spanner in ya palm
Walk into the camp, medicine for pedestrians
Refugees are everywhere, looking for the antidote
No cameras, no faux predators
Glo sticks like a Terry Cruise terrorist
Masked up dead presidents
Dance floor packed if you need to see the evidence

Peacekeeper

See your evil eyes hit me like a heat seeker
I'm just coolin' in my drip and my J sneakers
If the party lookin' bad then I do leave her
Cool it off (calm)
