

Survive

Baker Boy

Walṇaw li mirithirr li djälthirr
Märr ga dälthirr bala kind-dhirr
Märr ga yaka nhuṇu wäṇa yätjirr
Yakan galkurr before night fall
When the knight call
Marrrtjin ṇarrany ga throne-gu
Put my name on the throne book
For my people yaka ṇarraku own-gu

Give me a helicopter
A pterodactyl
Yo bring the doctor
Take the capsule
Verses too sharp like I eat flesh
I'm a TRex when the beat kicks
And my reflex is to crush this
Doesn't matter how fast you can run kid
You're messing with powers you can't kid
Do you really think you should confront this

We just survive
We just survive
I don't how we continue to thrive
We keep on going like we cannot die
We keep on going we living our life
We just survive
We just survive
I don't how we continue to thrive
We keep on going like we cannot die
Carry the fire so we can survive
City lights and the loud bass
Gotta stand up fight back

When the Hunters become hunted
Poverty line becomes funded
Billionaires with a million shares
Market crash they redundant
Top floor to the dungeon
Wouldn't last a day in our shoes
What you know about living of the land
Talking oceans and harpoons
Not fast cars not cartoons
Need to slow down on that fast food
Coz lion kings keep denying things
Heard that from a little zazu
Sleeping beauty all up in that castle
Ugly truth that thing gon' fall
And with no hesitation
They gone blame the nation
So, I guess I'm ready for war

We just survive
We just survive
I don't how we continue to thrive
We keep on going like we cannot die
We keep on going we living our life
We just survive

We just survive
I don't how we continue to thrive
We keep on going like we cannot die
Carry the fire so we can survive
City lights and the loud bass
Gotta stand up fight back

My survival ability now
To rest on the fact that I have to share that journey of surviving
Share it with those that are still struggling trying to survive
Against the enormous odds of the vicious cycle,
The merry-go-round of prisoners
In and out of prison
(We keep on going like we cannot die)
(We keep on going like we cannot die)
The perpetual journey of going from one addiction to another
(We keep on going like we cannot die)

We just survive
We just survive
I don't how we continue to thrive
We keep on going like we cannot die

We just survive
We just survive
I don't how we continue to thrive
We keep on going like we cannot die
We keep on going we living our life

We just survive
We just survive
I don't how we continue to thrive
We keep on going like we cannot die
Carry the fire so we can survive

We just survive
We just survive

We keep on going like we cannot die
We keep on going like we cannot die
We keep on going like we cannot die
We keep on going like we cannot die
