

Bad Influence

Bakermat

Hey stranger, you look lonely
You could look a lot better if you put your hands on me
Came with friends but now I see only
You and me
Hey stranger, see you watch me
Don't you know a little danger never killed nobody
You just look like a part of my story
That I'm gonna regret

I don't know you and you don't know me
But I got a feeling we both could be
Partners in crime, let's put on a show
I don't know you but I know

That's some bad bad bad bad
Influence on me
Baby that that that
That's exactly what I need

Hey stranger, what you're thinking
Let me have a taste of what you're drinking
I taste trouble on your lips and it's what I want
All I want

I don't know you and you don't know me
But I got a feeling we both could be
Partners in crime, let's put on a show
I don't know you but I know

I don't know you and you don't know me
But I got a feeling we both could be
Partners in crime, let's put on a show
I don't know you but I know

That's some bad bad bad bad
Influence on me
Baby that that that
That's exactly what I need
