

# Bye Bye

Bakermat

When the volume's wearing off  
The stuff and love of songs we heard and flirted with  
Admitten that we hit the bottom beats ago  
The need that flows through veins and stains the way of regular  
shit

Did we lose it, do we get it now?  
Can we be us?  
Did we lose it, do we get it now?  
Can we be us?

Did we lose it, do we get it now?  
Can we be us?  
Did we lose it, do we get it now?  
Can we be us?
