

# Lion

Bakermat

Ja Rastafari  
Lion from the tribe of Judah  
From coast to coast and across the pond  
Give it in some places  
On the ready  
Jump

We're getting out  
Upon this land  
I love the rocky terrain  
The heat on my skin  
As we feel breathe  
The smell of the desert in the air

I love the scouring of the earth  
I love the way that it was born  
I love the sun up in the sky  
I love the cold deep in the night

Are we ready for the boys and girls in the smoke?

Jump

The heat on my skin  
As we feel breathe  
The smell of the desert in the air

I love the beauty of desert  
I love the way that it was born  
I love the sun up in the sky  
I love the cold deep in the night

Lion from the tribe of Judah  
And this is how we see jungle lion's session  
Ever living, ever faithful, ever sure, every time  
Give it in some places  
On the ready
