

## Spotless Mind

Bakermat

We were not the same  
You showed me your ways  
And now I watch French cinema and smoke  
In time, I'll forget my spotless mind  
Always displacing me  
Your first world refugee  
And now I'm just a key without a home  
In time, I'll forget my spotless mind

Haunting all the graveyards we used to kiss in  
Talking 'bout the world and how it doesn't really feel like home  
I found your toothbrush yesterday  
The feeling came and went away  
And in a way it feels like home

I wrote your eulogy In words you barely speak  
In Heideggerian philosophy  
In time I'll forget my spotless mind  
I hope you hear this song Sorry it took so long  
I'm taking all my words back so long  
In time I'll forget my spotless mind

Haunting all the graveyards we used to kiss in  
Talking 'bout the world and how it doesn't really feel like home  
I found your toothbrush yesterday  
The feeling came and went away  
And in a way it feels like home  
The feeling came and went away  
And then it really felt like home  
... 1 2 3 4

Haunting all the graveyards we used to kiss in  
Talking 'bout the world and how it doesn't really feel like home  
I found your toothbrush yesterday  
The feeling came and went away  
And in a way it feels like home  
The feeling came and went away  
And then it really felt like home
