

## Stand Up

Bakermat

I can stand up and tell everybody I got him  
I can stand up and tell everybody I got him  
I say stand up and tell everybody I got him  
I can stand up and tell everybody I got him

Ooh good gossip

You see I know I got my man  
Honey, I know I got him

I can stand up and tell everybody I got him  
I can stand up and tell everybody I got him

Ooh good gossip

You see, girls... let me ask you something  
Have you ever had any so-called "best girlfriends"?  
You know what kind  
Laugh in your face and try to take your man behind your back  
You know what I'm talking about

I can stand up and tell everybody I got him  
I can stand up and tell everybody I got him  
I say stand up and tell everybody I got him  
I can stand up and tell everybody I got him

I can stand up and tell everybody I got him  
I can stand up and tell everybody I got him  
I say stand up and tell everybody I got him  
I can stand up and tell everybody I got him
