

For a Walk

Balance and Composure

Take me for a walk,
point me where you want to steer me
Take me for a walk.
I'll go where you are
Take me for a walk.
Kiss me in that alley baby
Take me for a walk.
Touch me anywhere

I don't want to stop
One hit and its got us floating,
tiny speckled dots
You're my little star
I just bought a gun
Stripped it of every bullet,
have a little fun,
show me who you are

Undress me, the lights low.
I'm dying in your bedroom
Your passion, your eyes close
and I've been so low

Open your head and let me in
I want to lie in the back of your chest tonight
I want to break all the rules that I had tonight
Break all the rules that I had tonight
Open your... and let me in,
I wanna... in the middle of left and right.
I wanna... in the middle of left and right
Take me for a walk
