## **Stonehands**

## **Balance and Composure**

Don't say goodbye to me too fast Even though I'm fast asleep Try your best to hold onto the past Wasted it all on me

They chase us around all the hallways Sometimes I swear that I see Know that I'm here for you always Ghosts of you and me Wasted it all on me

## Ohhhhhh

I know you got hands of stone And I know you got hands of stone Crush everything I've ever known Including my bones, when you left home for the unknown

Ohhhhhh
