

From the Edge of Time

Balflare

Throwing the stone at the shore
The blowing wind from the west
The sun is smiling you all the time
And the sun reflects
you forever in time

how long belonging at this shore
There are so many skeletons
I am entombed to my neck
And i see the highest wave from so far

The highest wave is coming

Escape from the time
Of emptiness
It chase you to the edge
If you think there is no way out
No one remind you
And no one leave

Escape from the time
Of everlasting
It chase you to the edge
If you think there is no way out
No one remind you
And no one leave forever

Throwing dice in the diet
The blow it comes from inner self
The sun is smiling at you all the time
And the sun reflects
You forever in time

How long belonging at this shore
There are so many skeletons
I am entombed to my neck
And i see the highest wave from so far

The highest wave is coming

Escape from the time
Of emptiness...
The highest wave is coming
Escape from the time
Of emptiness
