

I'm Your Shadow

Balflare

I know we walk on the roads
That never cross
Though it was understood
From the beginning
I tried to for get you
With each passing day
When i close my eyes
I see your face in my mind

How many times
Do i have to lie to myself?
'Cuz i can't say the words
I love you

May be i am not the one
To give you happiness
But forgive me
If i hold you tight tonight

Wherever you are
In a land so far away
I think of you
I pray for you
Whoever you spend
Your life with beside you
You'll be in my
Be in my heart forever

I'll never know
If the words you said me real
Why tears fill my eyes
As i see the lonely profile
Now i can understand that
There more to love
Say the words
I couldn't say before

I am not the one
To give you happiness
But forgive me
I say i love you

Wherever you are
In a land so far away
I pray for you
(I pray for you)
Whoever you spend
Your life with beside you
You'll be in my
Heart forever
