

Outbreak

Balfare

Living in a world of fear and devastation
Constant wars and destruction in the land beyond and at home
Why do we keep fighting one another
History never seems teach us

Same mistakes over and over then and again
And so ruin, downfall of cities and countryside
Ages to come
Precious things lost
The beauty and wonders of nature
And mother earth

CLEAR UP OUR MIND AND SOUL
REMEMBERING OUR YOUTHFUL DAYS GONE BY LONG AGO
GET BACK OUR FAITH AND LOVE FOR PEACE
TO SEND OUR MESSAGE TO ALL AROUND THE WORLD

Oh, what terrors man has made by his own hands
Intellects surpass
Not really seeing the end
What a woeful state we put ourselves in
Can we still save this earth?
Our precious home
