Stack my money up just like it was lego
I am so hot yeah you know I am fuego
These little bitches wanna be on my label
They watching me just like I'm some cable
Man please do not test me cause I am not stable
I got the syrup just like I was maple
Left that bitch, cause that bitch is not faithful
Main bitch illegal
Eye on the streets just like I was an eagle
If you not eating then I cannot feed you
If you not talking money I don't need you
They saying my name and I don't know these people
She needs a savior send her to the steeple

Riding dicks for free you need a repo
