

Fast Forward

Ball Park Music

Only love takes you
Far away from
Too many ideas
Spinning hotel rooms
Room to breathe sonny
A place to rest your weary head
I know you'd like to fast forward
Past it all
On to the end
Ooh

I used to think you were an island
Rare and disconnected
I would die
Treading water
Right beside you
But I forgot you are from heaven
I forgot I am a fool
And now I feel our bodies drifting (drifting), drifting
Drifting (drifting), drifting

By the time I find it
All of the world has moved on

I had a heart that I could wrangle
I could beat it into shape
I'd let it do its thing, and it
It always knew its place
And so a loyal dog turns wild
Starts behaving like a child
And now I feel our bodies drifting (drifting), drifting
Drifting (drifting), drifting

By the time I find it
All of the world has moved on

Move on
Move on
Move on
Move on
(Only love, only love) Move on
(Only love, only love will save you) Move on
(Only love, only love) Move on
(Only love, only love will save you) Move on
(Only love, only love) Move on
(Only love, only love will save you) Move on
(Only love, only love) Move on
(Only love, only love will save you) Move on
