

# Happy Healthy Citizen of The Developed World Blues

Ball Park Music

Twenty-one, twenty-one  
Are you having fun  
I got drunk and bought a gun  
Now I'm having fun

And I feel alright  
My chest feels tight  
We stay up, stay up all night  
Working out whether to fix or destroy you

Do you want it, do you want it  
Cause we can get it, we can get it  
I've got a friend and yeah she sells it

And I feel my skin  
And I look so thin  
And as I breathe you in  
I'm working out whether to fix or destroy you

Riding in helicopters the government bought  
Riding in helicopters the government bought  
Riding in helicopters the government bought

Do you want it, do you want it  
Cause we can get it, we can get it  
I've got a friend and yeah she sells it

And I feel okay  
I take it day by day  
And as I waste away  
I'm working out whether to fix or destroy you

Riding in submarines that the government bought  
Riding in submarines that the government bought  
Riding in submarines that the government bought

I got caught by the police  
I've been so bad, done so much bad shit  
They sent me down, whacked the back of my head  
They asked for the truth

So I told them lies, all lies  
Lies, all lies  
Lies, all lies  
Lies, all lies

I got shot straight out of a cannon  
Up into the air  
All the circus animals  
Open their jaw and wave their shiny fangs at me  
As I fly down to you

So come on  
Get on top  
Jump up and down  
Forever

Elton John is not the perfect rifle  
But you fire him good  
You can make a miracle  
In her two hands  
Let the little animal  
Crawl into the room

So come on  
Get on top  
Jump up and down  
Forever
