

Dream Believer

Balligomingo

I don't know why I hurt you
Or feel the way I do
There must be some kind of reason
That I don't see it half way through

You only see the sun
You never see the rain come down
A beautiful day
And I know
You only see the sun
You never see the rain come down
A beautiful day

I know you found your way
And dream believer
You found the sun again

Searching for the horizon
It's another summer day
Standing close I can feel it
It's like the sun without the shade

You only see the sun
You never see the rain come down
A beautiful day
And I know
You only see the sun
You never see the rain come down
A beautiful day

Feel the sun
A beautiful day

I know you found your way
And dream believer
You found your sun again
I know you found your way
And dream believer
You found the sun again
