No Good

Ballyhoo!

I don't wanna see your face
For the rest of my days
Took your poison to the head
19 years old, I feel half dead
Give me a reason not to turn around
Not to leave you here for good
Just know there's nothing you could ever say
Baby, we're done, you're just no good

I remember the days
So young and green
I was looking for romance,
just someone to laugh with
You were the new girl on the scene
I was a shy boy
But you paid attention
It took a while to figure out
I was a drug and you were addicted
Doing your best to keep me down
But not anymore

How did I let it get this far?
I was in control till you came along
I'm picking up the pieces from the floor
whoa

I don't wanna see your face
For the rest of my days
Took your poison to the head
19 years old, I feel half dead
Give me a reason not to turn around
Not to leave you here for good
Just know there's nothing you could ever say
Baby, we're done, you're just no good

We got involved so easily
I was a nice boy
But you were just crazy
You never let up
Stop squeezing me
The honeymoons over baby
I just wanted a girl to make me smile
When you start drinking, you get wild
Calling the cops at 4 am
Baby, I'm asking...

How did I let it get this far?
I was in control till you came along
I'm picking up the pieces from the floor
whoa

I don't wanna see your face
For the rest of my days
Took your poison to the head
19 years old, I feel half dead
Give me a reason not to turn around
Not to leave you here for good

Just know there's nothing you could ever say
Baby, we're done, you're just no good

I don't know how I stuck around this long
Can't take a lot of these arguments and raging, raging
We got some issues and it feels so wrong
Baby, I just don't know

How did I let it get this far?
I was in control till you came along
I'm picking up the pieces from the floor
whoa

I don't wanna see your face
For the rest of my days
Took your poison to the head
19 years old, I feel half dead
Give me a reason not to turn around
Not to leave you here for good
Just know there's nothing you could ever say
Baby, we're done, you're just no good

I don't wanna see your face
For the rest of my days
Took your poison to the head
19 years old, I feel half dead
Give me a reason not to turn around
Not to leave you here for good
Just know there's nothing you could ever say
Baby, we're done, you're just no good
