

## Overnight Sensation

Ballyhoo!

Burn it down  
Are you really gonna' burn it down  
You don't have to say it I can see it  
The look of treason on your face  
Turn around  
Someday you will come around  
You don't have to show it don't blow it  
This is only just a phase

He had the darkest eyes  
And a starry night like vision  
Dreams of a spotlight sky and an overnight sensation  
Don't you turn your back now  
This is what it takes to make it  
Hurry up and wait  
Don't be late for the show

Slow it down  
Do you need someone to show you how?  
Live it love it lose it  
Confusion is a common side effect  
Needing is Sometimes difficult to reason with

You're bleeding all your music  
You did choose it  
Mortally wounded then you're dead

He had the darkest eyes  
And a starry night like vision  
Dreams of a spotlight sky and an overnight sensation  
Don't you turn your back now  
This is what it takes to make it  
Hurry up and wait  
Don't be late for the show

He had the darkest eyes  
And a starry night like vision  
Dreams of a spotlight sky and an overnight sensation  
Don't you turn your back now  
This is what it takes to make it  
Hurry up and wait  
Don't be late for the show
