

She Wants to Destroy Me

Ballyhoo!

I wish I can understand you girl
You and your wicked way
Just when I think that we can have something going on
You're freaking out on me
Last night we did it in the kitchen counter
You know I love it when you throw me down
But we can never have a happy ending
You know I hate it when you throw me out

I can never find a piece as good again
Is it worth it?
Long shot on us, baby
You know you drive me crazy too
You know it, you know it's so...

When you get dressed up to hit the bar
Feels like a holiday
At two A.M. you wanna hit me with your car
In an alcoholic way
You sing the words that can gun me down
You're so hot when you're mad
Just admit you wanna pick me to the ground
Cause I'm the best you ever had

I can never find a piece as good again
Is it worth it?
Long shot on us, baby
You know you drive me crazy too
You know it, you know it's so...

I must be insane to be thinking it's for use
But I know I got a reason
I don't need a fair excuse
When you tell me that you want me
There's no way I could refuse
I swear I'm not confused

I can never find a piece as good again
Is it worth it?
Long shot on us, baby
You know you drive me crazy too
You know it, you know it's so...

I must be insane to be thinking it's for use
But I know I got a reason
I don't need a fair excuse
When you tell me that you want me
