Balming Tiger

F1, Hit the race car
Climb another summit
Run another block, I jumped back
And I rupted
Volcano shots we lit deep in the function
Moncler from head to toe, we on dumb fits
I roll that picture finger lickin' spice
Reefer got me feelin' nice
When I'm cookin' up the rhythm I be forgettin' my vice
Bichu guessed it on the price
But you better think it twice
Cuz my tag goes zero, zero, zero, zero

Naneun mameul yeoreotji
Amu geokjeongi eopseo yeojeonhi
Ain't no workaholic
Siganeun neuryeojyeotji
Ollaga jeomjeom
Never mind the others

What you gon' do if you tumble down?
I don't think about the boring sheet
Hella hella hella green
Hella hella hella green, yeah

What you gon' do if you tumble down?
I don't think about the boring sheet
Hella hella hella green
Hella hella hella green

In the moon, in the sky
I can see your face

When you look in my eyes
Everything feels fine
When you look in my eyes

Do you want you to meet me in the sky
I don't know, I don't know
It could be alright
I can see your eyes
