

# Fever

Balthazar

If you get the fever down in your heart  
I'm sure that fever is gonna be hitting you hard  
You say it makes you feel you're alive  
You call your father the moment that fever arrives

It comes easy to, comes easy to you  
Just like I do, too

You say your money means nothing to you  
But to be honest, your money was all that I knew  
Great! Another rich kid topping the charts  
But then I heard it and it hit the soft spot in my heart

'Cause it comes easy to, comes easy to you  
Just like I do, too, yeah

(No more rushing)

I get the fever every time you cross my mind /x10
