

# Leaving Antwerp

Balthazar

[Verse 1]

I'm leaving Antwerp riding on the train  
With your ghost who's driving me insane  
The uniform, the flag are on my mind  
Well, it turns out, there's nothing on the line  
I was destructive as much as I could be  
So I didn't read your heartbreak policy  
To save me babe, I understood  
That you were just way too good

[Chorus]

Once I had a choice to become better  
One I couldn't make  
Before I walked away  
Once I had a choice to become better  
One I couldn't make  
Before I walked away

[Verse 2]

I was a swan feeding on your pearls  
And you were hopelessly romantic, girl  
Are you pissed off the end was unrehearsed  
Or are you mad you didn't find the exit first?  
That was the time, that Saturday  
I threw it all, all away

[Chorus]

Once I had a choice to become better  
One I couldn't make  
Before I walked away  
Once I had a choice to become better  
One I couldn't make  
Before I walked away

[Bridge]

What kind of man gives (?) first?  
'Cause love and hate, they're both doing great  
Ever since we did part  
'Cause right and wrong are both standing strong  
Ever since I broke your heart

[Chorus]

Once I had a choice to become better  
One I couldn't make  
Before I walked away  
Once I had a choice to become better  
One I couldn't make  
Before I walked away

[Outro]

Ahhh Sylvie girl, we gotta keep on movin'  
Ahhh Sylvie girl, we gotta keep on movin'  
Ahhh Sylvie girl, we gotta keep on movin'  
Ahhh Sylvie girl, we gotta keep on movin'  
Ahhh Sylvie girl, we gotta keep on movin'
