

So Easy

Balthazar

Wait here my friend
This is the end
Got tired to pretend
And well, the days are so few

Who is to say
And where do we pray
And who is it will pay
For all the things we do

Look further no more
Got nothing in store
On everyone we swore
Well they aren't here no more

You know our deal is done
And no one has won
The scene that is dead
Won't lead us to our bed

You were so easy
Down from the start
Been round to part
But that's something we both should know

You were so easy
Down from the start
Been round to part

Wait here my friend
This is the end
Got tired to pretend
And well, the days are so few

You know who is to say
And where do we pray
And who is it will pay
For all the things we do

So easy
Down from the start
Been round to part
But that's something we both should know

You were so easy
Down from the start
Been round to part
