

Nostalgia

Balu Brigada

Looking through a kaleidoscope in space
Searching for a fairy tale kind of place
Think I'm crazy?
I can tell by the look on your face
Think I'm crazy? (Crazy)
(I don't know)

I've been figured out
Deeper deeper down
I think I've got to the bottom of it

I need a break from this timeline
From all the handshakes and deadlines
These people and places are bringing me down
(Bringing me down)
These people and places are bringing me down
Down

Nostalgia is taking a hold on me
I can't handle modern society
A challenger to my calendar
Nostalgia has gotten the best of me again

I've been figured out (Out)
Deeper deeper down (Down)
I think I've got to the bottom of it

I need a break from this timeline
From all the handshakes and deadlines
These people and places are bringing me down (Bringing me down)
These people and places are bringing me down
Down

I've been scraping at the bottom
I think I haven't even felt it
I've been looking for a treasure
(Nostalgia, nostalgia)
People, places they're bringing me down, bringing me down
People, places they're bringing me down, bringing me down)

(Nostalgia)
I need a break from this timeline
From all the handshakes and deadlines
These people and places are bringing me down
(Bringing me down)
These people and places are bringing me down
Down

(These people and places are bringing me down, down)
